APPLICATIONS

Golden Eagle's thermosetting powder coating paints are designed for a wide range of industrial and architectural applications, combining protection, performance, and beauty.

They are used across diverse sectors where durability and aesthetics are essential.

Main Applications :

Architectural structures

aluminum profiles, façades, windows, and metal doors.

Industrial equipment

machinery, electrical enclosures, and metal parts requiring corrosion protection.

Automotive and transportation

vehicle components, rims, and accessories.

Furniture and home appliances

metal furniture, lighting fixtures, and domestic appliances.

General metal finishing

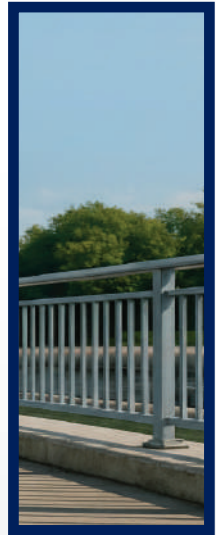

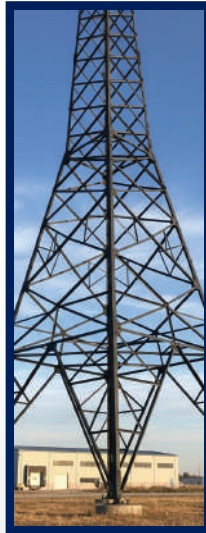

fences, handrails, gates, and decorative elements.

Each coating provides long-lasting protection, excellent color stability, and a flawless visual finish, making Golden Eagle a trusted partner for professionals who demand superior results.

OUR PROJECTS

Golden Eagle has proudly supplied its premium thermosetting powder coating paints to a wide range of landmark projects across Jordan, the Middle East, and Africa.

Our products have been trusted in architectural façades, industrial facilities, automotive plants, and public infrastructure, where durability and aesthetics are essential.
